

CHD 165

Assignment One

OBJECTIVE ONE: Articulate how one's biases can affect observations and our expectations of individuals.

ACTIVITY:

This is a short activity from the IRIS website that demonstrates biases, with an activity embedded in the document.

Resource: The IRIS Center: [awareness of biases nacirema.pdf](#)

Download the document. After reading the description of the Tribe of Nacirema, answer the questions included on the document. Summarize by discussing how this relates to our own expectations of families and children.

Criteria	Accomplished	Emerging	Attempted
<i>Answer the questions on the handout</i>	All questions answered completely	Most questions answered	Some questions answered, or not all answered completely
<i>Description of relationship between activity and personal expectations</i>	Detailed description with appropriate examples	Description with some examples	Some description; limited examples

Comments:
